

SCAN.PREMIUM

Personality analysis

Our scan.premium Analysis of Potential is the most comprehensive personality evaluation on the market. Participants receive the personalized scan.premium manual, an extensive results report and development resource featuring in-depth analysis of personality traits as well as insights, ideas, and concrete recommendations for further development.

In-depth
Personalized
Development-oriented

The scan.premium evaluation and manual are an indispensable resource for supervisors, managers, and decision-makers, an essential tool for coaching and development, and an ideal point of departure for the formulation and accomplishment of goals, desires, and long-term projects.

Outstanding features:

- Preliminary interview with a certified scan consultant
- Online scan.premium Analysis of Potential (150 – 180 minutes)
- High-quality cloth-bound scan.premium manual
 - Detailed description of internal sources of motivation, behavioral preferences and performance under stress
 - Overview of individual strengths and potential areas of development
 - Customized development suggestions, book recommendations, and videos
 - Space to write down observations, insights, and ideas
- Personal meeting with a certified scan consultant to discuss the results
- Ideal resource for coaching supervisors, managers, and decision-makers
